 ABOUT US
 

---

CTC, with over 30 years of experience, represents the highest quality standards and excellent service in the field of building communication.

We develop and manufacture high-quality doorstations and video intercom systems, security systems and signage.

Our particular strength lies in manufacturing customized solutions that are constantly adapted to new market conditions and the needs of our customers.

CTC is certified according to DIN EN ISO 9001:2015, which is the most widely recognized and significant quality management standard nationally and internationally.

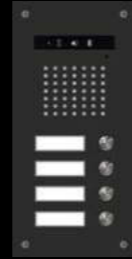

All our products bear the CE mark and comply with EU-wide requirements for safety, health, and environmental protection.

We are a team of professionals who love what they do.

Quality with expertise, vision, and character.

## PRESTIGE VENUS AUDIO

A 2-wire audio door intercom system that combines classic and timeless design with state-of-the-art technology.

The luxurious and durable materials used in the Prestige brass door intercom systems add a unique touch to building entrances.

# DOORSTATIONS

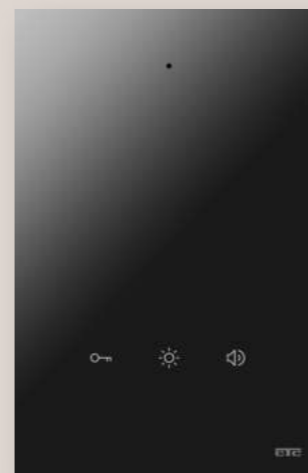

## ACCESS CONTROL

The protection of a building is becoming increasingly important in today's world. By implementing an efficient, modern, and technical control system that authorizes entry to your premises, you can optimize your security. Depending on your choice, you can equip your access control with a keycard, code lock, face control, or fingerprint system.

## VENUS AUDIO

Venus Audio is an intercom system that offers an elegant design, modern technology, and easy operation as an alternative solution to conventional analog interior systems. With its many advantages and simple 2-wire installation, Venus Audio allows for easy and quick exterior wall mounting without any additional effort.

- Intercom system with hands-free functionality
- Safety glass screen
- Touch function
- Menu
- Intercommunication between devices in the same call
- Up to 4 parallel devices on each call

Wiring system: 2 wires  
Color: White, Black  
Dimensions: 120 × 180 × 30mm (W/H/D)

## IRIS

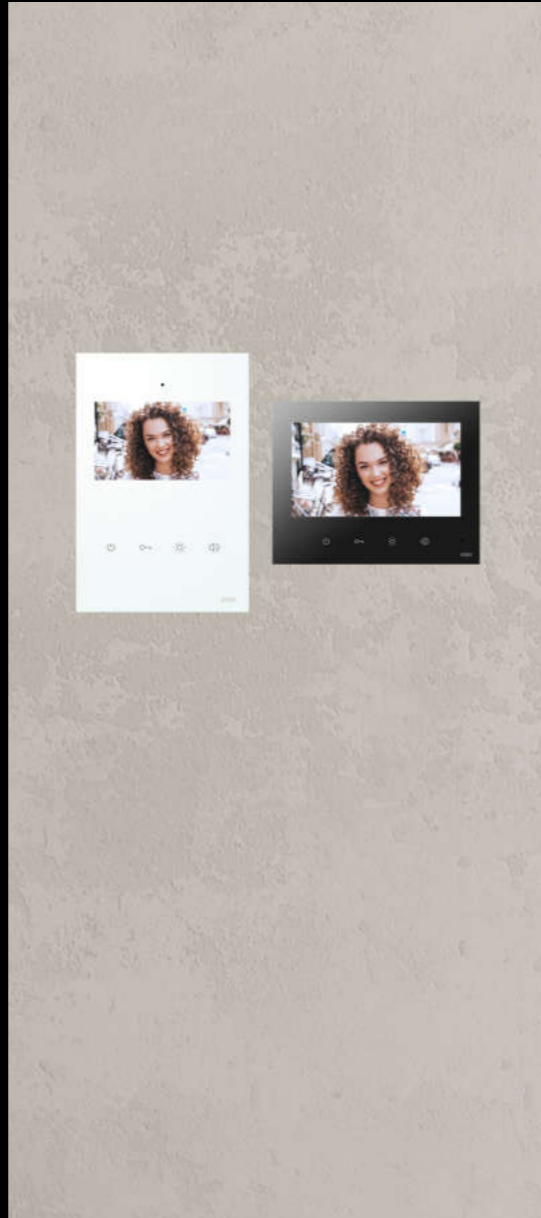

Reliable intercom systems with door opening function and reserve button for additional features. The range of Iris intercom systems provides complete solutions for all requirements in modern buildings. Our technological excellence based on international standards and years of experience from our employees enable us to guarantee the highest level of quality.

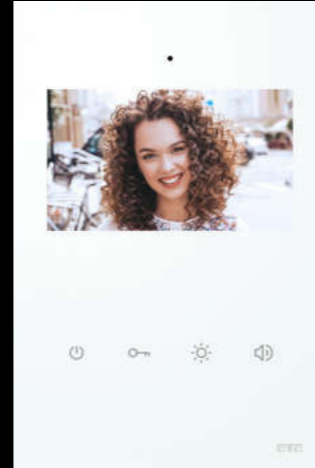

- Telephone-like
- Wall and table mounting
- Functions as a floor bell
- Parallel connection of up to 4 internal elements
- Also available as a replacement in the Universal 4+N series
- Combined with the Prestige door intercom system

Wiring system: 2 wires, 1+N, 4+N  
Color: White  
Dimensions: 90 × 220 × 55mm (W/H/D)

# VIDEO INTERCOM SYSTEMS

## ORION VISION 4,3"

"An integral part of any modern building, which emphasizes corporate design and contributes to guest satisfaction."

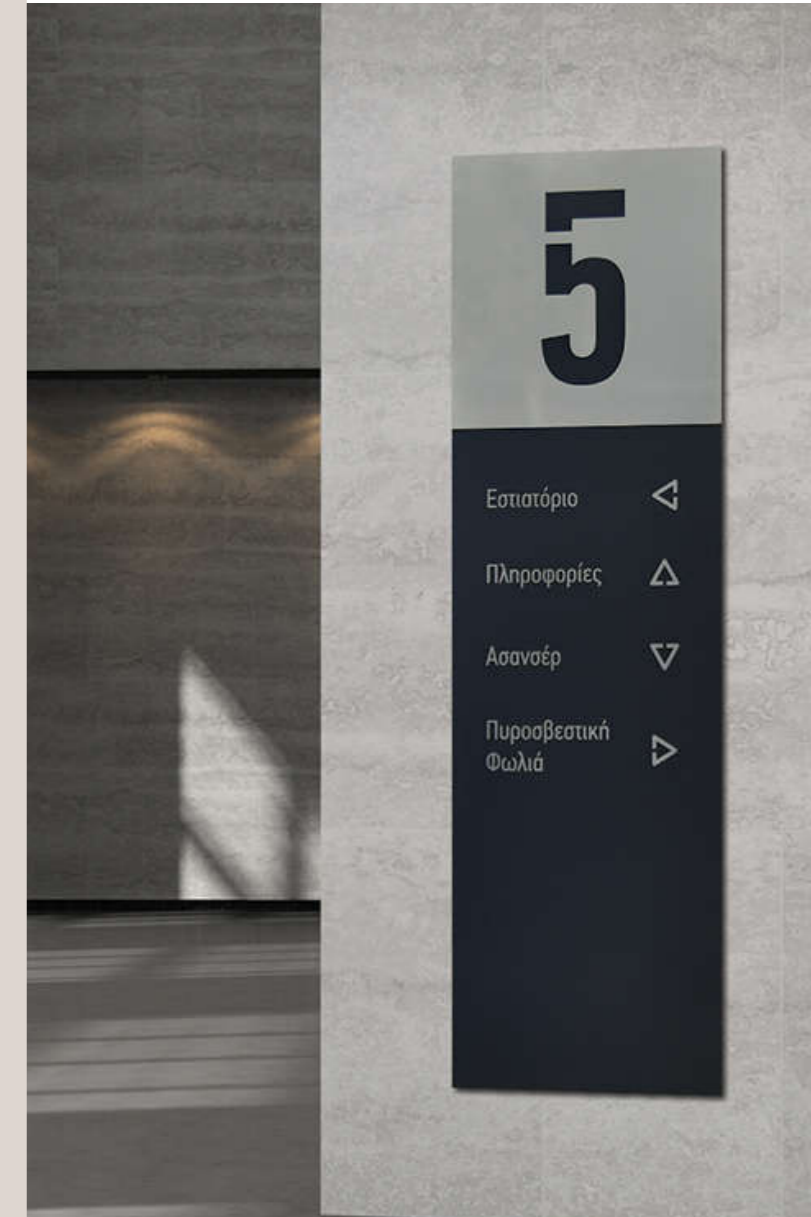

#### DESIGN

Good signage helps with direct orientation, smoother operation, and efficient organization. It is crucial for the perception of a place. Aesthetics, maximum functionality, and quality are the focus of CTC in planning, design, and construction. The signage design service offered by our company provides outstanding results that will impress your visitors. Our designers create a realistic image of the chosen signage during the development process. Then our factory begins manufacturing your luxurious and distinctive signage using the most advanced cutting and processing machines (CNC laser, router, electrostatic painting, etc.).

Categories of signage:

- Hotels
- Shops/Offices
- Buildings of any kind

## **C O N T A C T**

Our highly qualified staff provides direct and highly competent assistance - that's what sets our service apart.

Our interest and efforts to expand and continuously improve our business activities make CTC a highly reliable company. Our products offer timeless design and superior quality at competitive prices.

Our team is capable of taking on any project, from developing an idea to its implementation.
